Introducing the next generation of PreSonus' top-selling AudioBox Series recording and production solutions for Windows®, Mac® — and now iPad®!

Each with Studio One® Artist digital audio workstation software with unlimited track count, and new Capture Duo one-tap recording app.

Both the iOne and iTwo feature high-performance Class A mic preamplifiers with phantom power for use with studio condenser microphones, direct inputs for guitar and bass, and input for keyboards and other line level devices.
Capture your inspiration on an iPad; beam it to your Windows or Mac computer and finish it in Studio One Artist.

**iOne™ USB 2.0 / iPad® Interface**

- Bus-powered*
- 2 combo microphone / instrument / line inputs with low-noise, high-headroom, Class A preamplifiers
- +48V phantom power for condenser microphones
- Easy-to-use Studio One® Artist DAW software and 6+ GB of third-party sample content
- Capture® for iPad and Capture Duo one-tap recording apps with wireless transfer to Studio One Artist
- Compatible with almost all recording software for Mac®, Windows®, and iPad®
- 24-bit resolution; 44.1, 48, 88.2, and 96 kHz sampling rates
- 2 balanced ¼" TRS main line-level outputs
- Ultra-low-latency monitoring via internal analog mixer (Direct mix button)
- Stereo headphone output with independent level control
- Signal present and clipping LEDs
- Kensington® lock hole
- Rugged metal chassis

*iPad recording requires USB AC Adapter
