

AI Series Mixers / Universal Control AI 1.2 Release Notes

This 1.2 milestone update of Universal Control-AI with UC Surface for the StudioLive™ RM32AI and RM16AI rack mixers adds some exciting new functionality and resolves several known issues. UC-AI also includes support for existing StudioLive AI-series console mixers and retains the familiar VSL-AI user interface for the console mixers (16.4.2AI, 24.4.2AI, and 32.4.2AI).

When used with StudioLive AI rackmount mixers, UC Surface provides a sleek new workflow and feel that gives you a mixer control experience like never before. A future update will provide the same UC Surface user interface for the StudioLive AI console mixers.

New in UC Surface (Universal Control AI Version: 1.6.0.30286 Mac/PC & 1.1.2.30204 iOS)

- Filter DCA feature with Automatic and Custom Filter DCA's
- Group Master View to access all Filter DCA masters at once - see and control only what you need at any time
- New Channel Types added
- Stereo Link channels create a single stereo channel
- Display HPF in EQ graph

This release includes drivers and control panels for the following products:

- StudioLive RM32AI Mixer (UC Surface)
- StudioLive RM16AI Mixer (UC Surface)
- StudioLive 32.4.2AI Mixer (VSL-AI)
- StudioLive 24.4.2AI Mixer (VSL-AI)
- StudioLive 16.4.2AI Mixer (VSL-AI)

Note: Universal Control-AI does NOT support first generation StudioLive mixers (16.0.2, 16.4.2, 24.4.2) or FireStudio™ interfaces. Universal Control 1.7.2 is available on the PreSonus Website for those devices.

This release of Universal Control AI with UC Surface supports the following operating systems:

- Windows 7 Service Pack 1 (32bit and 64bit)
- Windows 8.1 (32bit and 64bit)
- OS X 10.8.5 (Mountain Lion)
- OS X 10.9 (Mavericks)
- OS X 10.10 (Yosemite)

Current iOS app versions compatible with the StudioLive AI RM-Series mixers and this UC Surface release:

- UC Surface version 1.6.0.30286 (Mac/PC) & 1.1.2.30204 (iOS)
