

# How to Record and Mix Great Vocals in

 **Studio One**

Second Edition!  
Studio One 5 info,  
more tips & tricks,  
more content!

Choosing a Mic  
Recording Tips  
Optimizing with DSP  
Equalization  
Compression  
Limiting  
Melodyne  
Vocal Strips  
FX Chains  
Reverb  
Delay  
Layering  
Comping  
Automation  
Performance Tips  
...and much more!

# Table of Contents

<b>Preface</b> .....	<b>7</b>
<b>Chapter 1   The Mic Is Your Instrument</b> .....	<b>10</b>
Microphone Types and Technologies.....	10
Condenser Mics.....	10
Dynamic Mics.....	11
Ribbon Mics.....	12
Microphone Polar Patterns.....	12
Understanding Polar Pattern Plots.....	12
The “Big Three” Polar Patterns.....	13
Sometimes <i>More</i> is More.....	15
Rejection—It’s All in the Angles.....	15
The Proximity Effect.....	16
The Importance of Room Acoustics.....	16
Connecting Mics.....	17
Mic Preamps and Setting Levels.....	18
Using Meters to Set Levels.....	19
Remote Control.....	20
Accessories.....	21
Pop Filters.....	21
Mic Stand.....	22
Shock Mount.....	23
Protective Box or Pouch.....	24
Microphone Disinfectant.....	25
Headphones.....	25
Key Takeaways.....	26
<b>Chapter 2   Recording Techniques</b> .....	<b>28</b>
Be Prepared Physically.....	28
Mic Technique.....	28
To Hold or Not?.....	28
Monitoring Your Vocals.....	29
Tech Talk: Zero-Latency Monitoring.....	29
Recording a Vocal.....	31
Overdubbing Vocals.....	32
Punching and Auto-Punching Vocals.....	32
Composite Vocals.....	33
Record the Takes.....	34
Tech Talk: Loop Recording.....	34
Audition the Takes, and Choose the Best Sections.....	34

Check the Flow.....	35
Bounce the Takes Together.....	35
Additional Comping Options.....	36
How to Normalize Comped Takes.....	36
Add a Dim Solo Function for Comping: Option 1.....	39
Add a Dim Solo Function for Comping: Option 2.....	41
The Next Step.....	43
Key Takeaways.....	43

### **Chapter 3 | Preparing Your Vocals for the Mix.....46**

About Envelopes.....	46
Event Level Envelopes.....	46
Event Gain Envelopes.....	47
Track Automation Envelopes.....	49
Using Multiple Envelopes.....	49
Step 1: Delete Silences.....	50
Step 2: Reduce Breath Noises and Inhalers.....	50
Step 3: Reduce Plosive Severity.....	51
Step 4: Phrase-by-Phrase Normalization/Gain Changes.....	51
Event Gain Envelope (Option 1).....	52
Isolate Phrases and Adjust Levels (Option 2).....	53
Tech Talk: Phrase-by-Phrase Normalization with Melodyne.....	56
Step 5: De-Essing.....	57
Step 6: Pitch Correction.....	57
Retaining a Natural Sound with Pitch Correction.....	59
How Pitch Correction Can Create Vocals with <i>More Soul</i> .....	60
And While We're on the Subject of Melodyne.....	60
Step 7: Tweak the Vibrato.....	60
Artificial Vibrato.....	62
Time to Start Mixing.....	63
Key Takeaways.....	63

### **Chapter 4 | Equalization.....66**

Tech Talk: The Decibel (dB).....	66
Equalizer Responses.....	66
Main EQ Parameters.....	70
EQ Slopes.....	71
What You'll Be Equalizing with Voice.....	71
The Lows.....	72
The Highs.....	72
The Upper Midrange.....	72
The Lower Midrange/Upper Bass.....	73
Level Range Options.....	73
Applying Linear-Phase, Low-Cut EQ to Vocals.....	74
Typical EQ Curves for Vocals.....	75

Plosive Reducer.....	75
Male Vocal EQ.....	77
Airy, Choir-Type Vocals.....	78
Male Ballad Vocal.....	79
Dynamic Mic Enhancer.....	80
Podcasting.....	81
Key Takeaways.....	82

## **Chapter 5 | Dynamics Processing.....84**

How Dynamics Processors Work.....	84
But First, a Word of Warning.....	84
Limiter <sup>2</sup> .....	84
Limiter <sup>2</sup> Parameters and Controls.....	85
How to Adjust the Limiter <sup>2</sup> 's Parameters.....	88
Compressor.....	88
Compressor Parameters and Controls.....	89
How to Adjust the Compressor's Parameters.....	92
Compressor Parameter Adjustment Tips.....	92
Compressor Presets: Friend or Foe?.....	93
Expander.....	94
Expander Parameters and Controls.....	94
How to Adjust the Expander's Parameters.....	96
Upward Expansion with the Expander.....	96
Gate.....	97
Gate Parameters and Controls.....	97
How to Adjust the Gate's Parameters.....	99
Understanding Sidechains.....	99
De-Essing.....	101
De-Essing with the Compressor's Internal Sidechain.....	102
De-Essing with the Multiband Dynamics Processor.....	102
The Vocal Repair Kit.....	103
Key Takeaways.....	105

## **Chapter 6 | Reverb and Delay.....108**

Reverb Components.....	108
What These Components Mean to Vocals.....	109
Reverb Technologies.....	109
PreSonus Reverb Personalities.....	110
One Reverb vs. Many.....	112
Supplementing with a Real Acoustic Space.....	113
Pre-Reverb EQ.....	113
General Reverb Parameters and Controls.....	114
Mix (Dry/Wet).....	114
Pre (Delay).....	114
Length.....	115

Damp(ness).....	115
Reverb Parameters for Specific Plug-Ins.....	115
Mixverb Parameters.....	115
Room Reverb Parameters.....	116
Open AIR Parameters.....	118
Hybrid Reverb.....	119
Delay.....	120
Use Stereo Channel Mode for Stereo Effects with Mono Vocals.....	120
Analog Delay and Beat Delay Common Parameters.....	121
Analog Delay Parameters.....	122
Beat Delay.....	123
Groove Delay.....	124
Using Delay to Create Long, Trailing Echoes.....	126
Key Takeaways.....	127

## **Chapter 7 | Channel Strips and FX Chains..... 130**

Fat Channel XT.....	130
HPF (High Pass Filter).....	131
Gate/Expander.....	132
Compressor.....	132
Tech Talk: Optical-Based Compression.....	135
Equalizer.....	136
Limiter.....	137
Expanding the Fat Channel.....	137
Additional (Free!) Fat Channel Extensions.....	137
Channel Strip.....	139
Low Cut Filter.....	140
Compressor.....	140
EQ.....	140
FX Chains.....	141
The Channel Editor.....	141
Mapping Controls to the FX Chain Control Panel.....	143
Changing Transition Setting Curve Shapes.....	146
Where FX Chains Are Stored.....	146
The VoxTools FX Chain.....	147
The Vocal QuickStrip.....	151
One-Knob Compressor.....	156
Advanced FX Chain Techniques.....	158
Key Takeaways.....	162

## **Chapter 8 | Automating Parameter Changes..... 164**

Track Automation Basics.....	164
Automation Methods.....	166
Method 1: Record On-Screen Control Motion.....	166
Method 2: Draw and Edit Envelopes.....	168

Method 3: Record Automation Moves from a Control Surface.....	169
Tech Talk: Control Surfaces.....	169
Method 4: Snapshot Automation.....	170
Automating Effect Parameters.....	171
The Trim Function.....	171
Key Takeaways.....	172
<b>Chapter 9   Doubling, Harmonizing, and Layering Vocals.....</b>	<b>174</b>
Doubling (ADT) with the Chorus Plug-In.....	174
Chorus Parameters and Controls.....	174
Pseudo-ADT with Pitch Correction.....	176
Time- and Pitch-Shifting to Create Pseudo-Double Tracking.....	177
The Doubled Vocal Fix.....	178
Tips for Mixing Double-Tracked Vocals.....	178
Creating Harmonies with Melodyne.....	178
Techniques for Layered Vocals.....	180
Dealing with Inhales.....	180
Fixing Notes that Don't End at the Same Time.....	180
Busing for Simpler Mixing.....	181
Key Takeaways.....	182
Chapter 10   Vocal Performance Tips.....	184
Emotional Dynamic Range.....	184
The Lyric Sheet.....	184
Ways to Add Emphasis.....	185
Avoiding the Vocal Disconnect.....	186
Fusion: It's the Package.....	187
Surprise—You're a Salesperson.....	187
Intimacy.....	187
Wait Until Playback Before You Judge Yourself.....	188
The Performance Curve.....	188
The Double Peak.....	189
The Quick Starter.....	189
The Long Ramp-Up.....	189
The Anything Goes.....	190
The Rock Steady.....	190
The Volume Jump Trick.....	192
Break Time.....	192
That's a Take.....	192
